2. The purpose of the fees set forth herein is to finance public facilities to reduce the impacts of public facilities caused by new development;
3. 4. The Council finds that the establishment and imposition of development impact fees is necessary and proper to pay for the cost of development of water supply and storage facilities in and for the City of Lemoore at this time;
5. The Council further finds that the specific amount of the fee, the description of the benefit and impact area on which the development impact fee is imposed, the listing of the specific public improvements to be financed, the description of the estimated cost of the facilities, the description of the reasonable relationship between the fees set forth in paragraph 4 above and the various types of developments, and the time for payment set forth in the Report as relating to fees set forth in paragraph 4 above and below in this resolution are proper and necessary and the information and data upon which the fees are based is correct and accurate;

The facts and evidence presented also establish that there is a reasonable relationship between the need for the described public facilities and the impacts of the types of development described hereinabove, for which the corresponding fee is charged, and also, there is a reasonable relationship between the fee's use and the type of development for which the fee is charged, as these reasonable relationships or nexuses are in more detail described in the Report;
