Staff Report

To: Lemoore City Council
From: David Wlaschin, Public Works Director
Date: January 31, 2006
Subject: Bid Call – Hypo Chloride System

Background:

Staff has been working with our City Engineer regarding a hypo chloride system at Well No. 10 and at the North Wellfield. The work involves the replacement of the current chlorine gas system with a liquid system. The system is less hazardous and reduces our risk exposure from gas leaks.

Staff would like to go out to bid and be back to Council in March for awarding of a contract with project to be completed by the end of May.

Budget Impact:

This project has been budgeted for in the Capital Improvement Program to be paid from the Water Fund.

Recommendation:

That Council authorize staff to go out to bid for the installation of a hypo chloride system at Well No. 10 and at the North Wellfield.
