Staff Report

Item # _____

To: Lemoore City Council
From: Kimberly Morrell, Chief of Police
Date: June 14, 2006
Subject: Animal Control Contract Kennel Services with
the County of Kings

DISCUSSION:

During the past year, the County of Kings has held several meetings to address the problem of the contract services for animal control. These services were not sufficient to cover their costs and overhead in providing their services. The City Manager and either Cmdr. Laws or myself attended the meetings. The County of Kings had different agreements with each city for animal control. The County wished to develop one uniformed system and contract to provide for animal control services and the billing of said services to all the cities.

The City of Lemoore, at this time, is the only city which provides our own animal control officer and services. We will only contract with the County of Kings for the kenneling costs. The agreement before you today would pay for direct costs of kenneling services.

I have attached the City-County Animal control Services Agreement for your review.

BUDGET IMPACT:

The cost, for 2006-2007 year for kenneling services is \$40,016.

RECOMMENDATION:

It is recommended that the Council, by motion, approve the City-County Animal Contract Services Agreement and authorize the Mayor to execute said agreement.
