Subject: Relocation of Gary V. Burrows Inc.

We strongly encourage your support in relocating Gary V. Burrows Inc. to the site adjacent to B & C Enterprises for the following reasons:

1. The storage of fuel within such close proximity to the railroad tracks, in conjunction with the associated truck traffic on Lemoore Avenue, represents a safety issue for the residents living in nearby apartments and the large volume of pedestrian and vehicular traffic in the area.
2. Moving the facility to the industrial park would allow for expansion of the business.

We are obviously not privy to the negotiations between the City and the Castadios; however, we feel that it would be beneficial for both parties to negotiate an agreement and bring this relocation project to fruition.
