

6/27/08

Dear Council Members,

In considering the request for the conditional use permit applied by David Towers and his Mother, I ask that you please take a look at the services his Studio will offer: (Scarification, branding) dermal punches, exotic/genital piercing implants, biopsy punches). These services are very dangerous and are discouraged by our health dept.

I am very worried about the location of his shop as his clients will be many of our 18 year old Juniors/Seniors. Although it is not against the law (as regulations with in our industry are still in the making) our health dept. looks down on this.

I and my husband have been working several years now with our Kings County Health Dept. to bring in regulations in which this type of service will not be allowed. Again, it is VERY DANGEROUS!

Please take some time to look into these practices before you make a decision.

Thank-You
