

**CITY OF LEMOORE  
REDEVELOPMENT AGENCY  
INVESTMENT POLICY**

**INTRODUCTION**

The City of Lemoore (“City”) and Redevelopment Agency has a fiduciary responsibility to maximize the productive use of assets entrusted to its care and to invest and manage these public funds wisely and prudently. The purpose of this document is to establish a prudent and systematic investment policy and to organize and formalize investment-related activities.

**POLICY GUIDELINES**

The City shall strive to maintain investment of idle funds and always be within the safety, liquidity and maximum guidelines. Idle cash management and investment transactions are the responsibility of the City Treasurer acting under the direction of the City Manager. The Assistant City Manager is responsible for auditing the investments for accuracy and compliance with the investment policy. This policy also applies to funds invested on behalf of the Redevelopment Agency.

**SCOPE**

It is intended that this policy cover all funds and investment activities under direct authority of the City and the Agency.

**OBJECTIVES:**

1. **Safety:** It is the primary duty and responsibility of the Treasurer to protect, preserve and maintain cash and investment placed in his/her trust on behalf of the citizens of the City.
2. **Liquidity:** An adequate percentage of the City’s portfolio should be maintained in liquid short-term securities which can be converted to cash if necessary to meet disbursement requirements. Since all cash requirements cannot be anticipated, investments in securities with active secondary or resale markets are highly recommended. Emphasis should be on marketable securities with low sensitivity to market risk.
3. **Yield:** Yield should become a consideration only after the basic requirements of safety and liquidity have been met.
4. **Market-Average Rate of Return:** The investment portfolio shall be designed to attain a market-average rate of return throughout budgetary and economic cycles, taking into account the City’s risk constraints, the cash

flow characteristics of the portfolio, and the State and local laws, ordinances or resolutions that restrict investments.

5. **Diversification:** The investment portfolio will be diversified to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.
6. **Public Trust:** All participants in the investment process shall act as custodians of the public trust. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust. In a diversified portfolio it must be recognized that occasional measured losses are inevitable, and must be considered within the context of the overall portfolio's investment return, provided that adequate diversification has been implemented.
7. **Prudence:** The City adheres to the "prudent person rule" which obligates a fiduciary to insure that:

"Investments shall be made with judgment and care--under circumstances then prevailing--which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

### **INVESTMENT STRATEGY:**

Cash forecasting and management is the preferred investment strategy for the City. Cash management activities include accurate cash projections, the expeditious collection of revenue, the control of disbursements, cost-effective banking relations, and a short-term borrowing program, when needed, that coordinates working capital requirements and investment opportunity.
