Date: October 2, 2008

Item # 5C

To: Lemoore City Council

From: Ray Greenlee, Parks and Facilities Superintendent

Subject: Corporation Yard Ice Machine

Discussion:

The ice machine at the Corporation Yard had stopped making ice and was serviced at the end of August. The situation did not get any better after the service call and it was determined that the unit needed to be replaced. The ice machine allows employees who work outside to have cold water and is used by the Recreation Department for various events. It was decided by me and Parks and Recreation Director Joe Simonson to replace the unit as soon as possible. A purchase order was requested and issued and an ice machine was purchased.

Budget Impact:

A one time increase to 4220-4825AR of \$3,100.00

Recommendation:

It is recommended that the City Council approves the one time budget increase of \$3,100.00 for the Corporation Yard ice machine.
