To: Jeff Briltz, City Manager

City of Lemoore

From: Frank Hernández, President  
Lemoore Little League

Our organization would like to thank the City of Lemoore for their generous allocation of funds to purchase bleachers for the Lemoore Little League ballpark.

As you know, player safety is of utmost concern in our organization and upon our initial pre-season review of the facilities; we discovered that the lights are in need of repair. We are hereby requesting your consideration in transferring the funds allocated to purchase new bleachers for use to repair lighting for Starrett Field and repair existing bleachers instead. New mounting brackets need to be fabricated; we will consult with a local business to fabricate the brackets as needed. Brackets will then be installed and bleachers repaired by replacing any loose or broken seating planks (the installation and repair labor will be performed by volunteers within our organization).

Thank you for your time. Please do not hesitate to contact me if you have any questions or concerns.
