RE: Training

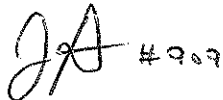

.....

On 02-08-2010 through 02-12-2010 I attended interview and interrogation technique course that was taught by Behavior Analysis Training Institute in Fresno, Ca.

The course was very informative and useful. I learned many different techniques on how to interview suspects as well as how to tell if someone is not being truthful.

This is the best training that I have attended since I have been employed and recommend this training for all Officers. They will use this training every day in the performance of their duties.

Respectfully Submitted,

Det. J. Henderson
