Subject: ADA Transition Plan Update

STAFF REPORT

Background:

On Tuesday, May 18, 2010 the Accessibility Advisory Committee met to discuss the next step in producing the City's ADA Transition Plan. The committee currently plans to develop draft prioritization criteria that will be presented to the public at large for input and feedback. Once the public has participated in process and the committee finalizes its recommendations, the transition plan will be brought to the Council for approval.

Mitigation priorities were discussed by type of City facility – Public Buildings/Parks and Public Right of Way. Public Building and Parks will be evaluated by the following criteria:

- Safety Issues
- Functional vs. Compliant
- Cost of Mitigation
- Frequency of Use
- Requests from the Public
- Type of Service Denied: Critical vs. Discretionary

Right of Way will be evaluated by the following criteria:

- Safety Issues
- Functional vs. Compliant
- Cost of Mitigation
- Land Use / Zoning
- Frequency of Use

During the next Accessibility Advisory Committee meeting (tentatively scheduled for late June), staff will provide the committee with resources to assign different weights to the various draft criteria to refine the order of prioritization.

Budget Impact:

None at this time.

Recommendation:

None at this time.
